

Life Sciences Product Capabilities

With over 100 years combined experience, we provide a vast array of highly engineered products and services utilizing the latest innovations and technologies for the pharmaceutical and medical industries.

ITT Enidine Inc.

Products

- Shock Absorbers
- Vibration Isolators

Applications

- Protection of Sensitive Medical Equipment/Electronics
- Isolation of Vibration and Noise from Reciprocating Pumps and Fans

Conoflow®

Products

- High/Low Pressure Regulators
- Differential Regulators
- Vacuum High Purity

Applications

- Medical Diagnostic Equipment
- Analytical Instrumentation
- Electromechanical & Electrotherapeutic Apparatus

Compact®

Products

- Pneumatic Linear/Rotary Actuators
- Stainless Cylinders
- Composite Cylinders

Applications

- Pharmaceutical Automated Machines
- Medical Diagnostic Equipment
- Clean Room

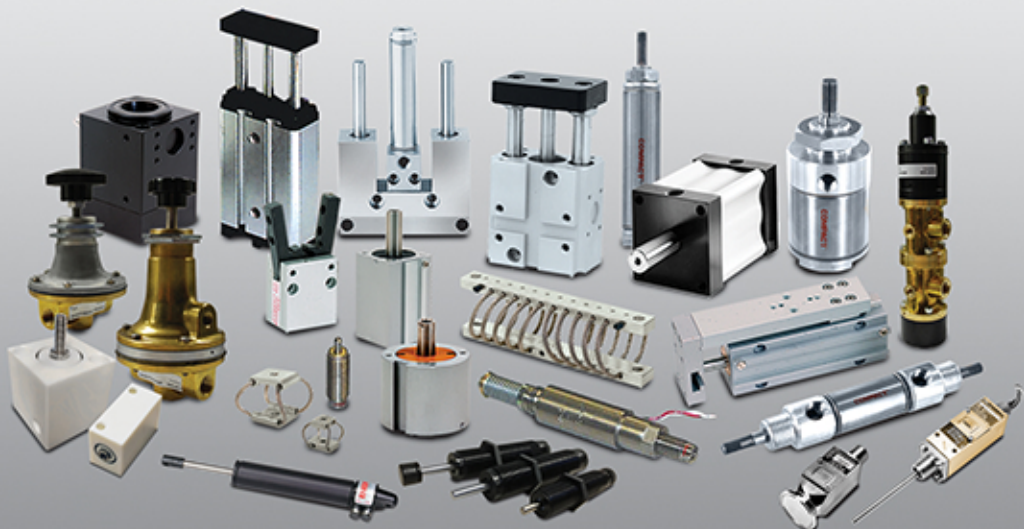

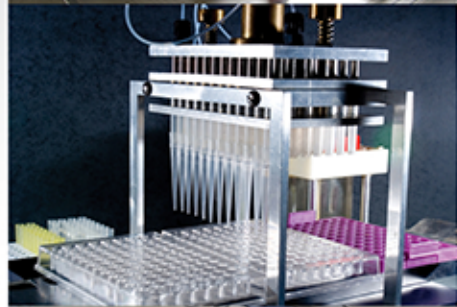

Neo-Dyn®

Products

- Sanitary Switches
- Temperature Switches

Applications

- Sterilization & Temperature Monitoring Switches
- Autoclave Pressure Monitoring
